Uporter

Developer & Co-Founder
November 2018 - April 2019 (6 months)

Creating new platform for decentralised media.

Building project on IONIC, Firebase, Angular, SCSS.

Endless Gain

Front End Developer (Remote)
August 2017 - January 2018 (6 months)
Manchester, United Kingdom, Remote

While working in agile work environment, I've managed to create many Javascript based A/B tests for websites with big traffic.

Most of my work was with: Javascript, jQuery, SCSS and HTML.

In order to make sure, that tests work smoothly, I've run a full QA testing for every test, which includes 7 devices and all browsers.

UAB ITOMA

Junior Front end Developer

February 2017 - July 2017 (6 months)

Kaunas

While working as a Front-end developer at ITOMA, I was responsible for designing and building websites.

Working with:

HTML, SCSS, Javascript, jQuery, Cordova, Firebase, WordPress GIT.

I've also acquired some knowledge for ReactJs and Node.
